Post Conviction Sex Offender Testing

40 Hour Basic Class

**Presented by the International Academy of Polygraph And Mr.
Raymond Nelson**

March 29 – April 02, 2010

Meets APA & FPA Guidelines

The 2007-2009 American Polygraph Association Post Conviction Sex Offender Testing (PCSOT) Committee has recommended new guidelines, standards and defined tests for conducting PCSOT. Students attending the basic course will be instructed how these newly developed tests and procedures should be incorporated into examiners' PCSOT practice. During this basic course, the student will receive instruction necessary to conduct Post Conviction Sex Offender Testing. The student will also be familiarized with the Supervision Model as it relates to Probation Officers and Treatment Providers. Upon completion of this 40-hour basic course, the student will possess the knowledge to successfully complete a written examination to demonstrate proficiency in the requirements set forth in the standards of practice, approved by the American Polygraph Association. Upon successful completion of the examination, the student will possess the requisite knowledge to conduct PCSOT polygraph examinations.
